

## Installing Franklin Custom Acrobat Professional Distiller Settings

Download the appropriate job options file from our website to your desktop by clicking on the link below:

<http://www.frankgraph.com/downloads.htm>

### INSTALLATION:

#### Windows

*This will only work with Acrobat Professional not Acrobat standard.*

Go to and open:

C:\Documents and Settings\Shared Documents  
Adobe PDF 6.0  
Settings

Copy/ Move the file you downloaded to this settings folder.

#### Macintosh OS X

Double click the joboptions file you downloaded and distiller will open. Click OK and it will be automatically saved in:

Library  
Application  
Adobe  
Settings

#### Macintosh OS 9

Open your Adobe Acrobat Professional folder. You will find the settings folder within this folder. Place the downloaded file in the settings folder.
